FCC

Regarding telemarketing phone calls;

I believe this is an invasion of my privacy. I pay for my phone line, I should be able to decide how it is used. I have to pay extra for blocks to be put on my phone, plus for other devices I may want to use to block unwanted calls. What do I get for this is other ways that these people can get around these blocks and still annoy me. My state of Indiana has tried to help me at no charge to me to block these calls. I don't want any of their calls.

Thank You
Kathleen Marshall
Lexington, Indiana
